

RFP 102020
Question & Answer Document

- 1. Can you please provide the latest update (and any relevant data, if possible) for the mappings of GST and LPT to the Standard Service and LRS products for both energy and demand?**

Answer:

For the one year period that ended September 30, 2020, the following mapping represents actual mapping of GST and LPT load: For GST, 71.1% was mapped to Standard Service eligibility for energy (kWh) and 71.7% for demand (kW). For LPT, 32.2% was mapped to Standard Service eligibility for energy and 35.5% for demand. For GST, 28.9% was mapped to Last Resort Service eligibility for energy (kWh) and 28.3% for demand (kW). For LPT, 67.8% was mapped to Last Resort Service eligibility for energy and 64.5% for demand.

- 2. Are there any plans for the Company to adjust the peak load experienced in July to reduce the COVID-19 impact to residential customers' capacity costs?**

Answer:

The Company has no plans to adjust the peak load.

- 3. Is the Company aware of any town/cities in UI's territory that will potentially participate in the Community Choice Aggregation program?**

Answer:

There is no approved Community Choice Aggregation in CT at this time.
